

Financial Conflict of Interest Disclosure Form for Investigators in Externally Sponsored Programs

(ORCR Form #1.0)

This form is confidential and may be reviewed only by the appropriate Department Head/Director/Dean and others as designated in the UO Financial Conflict of Interest policy. Copies may be made only by the signer and by the Office for Responsible Conduct of Research. Originals are submitted to and maintained by the Office for Responsible Conduct of Research.

What is a “Financial Conflict of Interest”?

A financial conflict of interest occurs when there is a divergence between an individual’s private interests and his or her professional obligations to the University such that an independent observer might reasonably question whether the individual’s professional actions or decisions are determined by considerations of personal gain. Potential and actual financial conflicts of interest depend on the situation and both must be managed accordingly. The identification of these financial interests does not necessarily imply any improper activities or motives on the part of the individual.

What is the purpose of this form?

This form seeks to identify financial conflicts of interest that must be managed:

- to help assure the ethical conduct of research and sponsored programs,
- to address federal regulations governing externally-sponsored programs, and
- to help protect both the institution and investigators in limiting their liabilities in the conduct of university-affiliated activities.

Who should complete this form?

All “Investigators” as identified by the Principal Investigator on the Electronic Proposal Clearance System (E-PCS) as responsible for the design, conduct, or reporting of externally funded research or other externally funded program must submit an annual disclosure form.

When do I complete this form?

Annual disclosures are due May 1st of each year and are based on your data from the prior calendar year (January-December). The disclosure date provides individuals the ability to use their annual income tax return information, if needed, to complete this form. A current disclosure must be on file with the Office for Responsible Conduct of Research prior to the submission of proposals for external funding. In addition, if there is a material change to the information provided (an acquisition or disposition of a significant financial interest) a new disclosure form must be submitted within 30 days of that change.
